

WE MAKE BOLTING BETTER®

SOLON® BELLEVILLE SPRINGS & WASHERS

CERTIFICATE OF RoHS COMPLIANCE

Solon “Belleville Springs”, Solon Flange Washers, and Solon Pressure Switches:

All product lines made from 17-7PH, 301 SS, Phosphor Bronze, Inconel 718, Inconel X750 and H13 tool steel.

All items made from carbon steel, spring steel and alloy steel that are plain, oil coated, black oxide or phos and oil coated.

All carbon steel, spring steel and alloy steel items manufactured after February 2005 that are mechanically zinc plated with clear, trivalent chromate.

All carbon steel, spring steel and alloy steel items manufactured after June 26, 2015 that are mechanically zinc plated with yellow, trivalent chromate.

To Whom It May Concern:

This document certifies that the components of Solon Belleville Springs, Solon Flange Washers, Solon Disc Springs, and Solon Pressure Switches are made from materials as stated above and manufactured by Solon Manufacturing Company of Chardon, Ohio, USA are in compliance with Directive (EU) 2015/863 (RoHS 3) of the European Parliament and of the Council of 31 March 2015 and The Administrative Measures for the Restriction of the Use of Hazardous Substances in Electrical and Electronic Products (China RoHS 2) on 21 January 2016 on the restriction of the use of certain hazardous substances in electrical and electronics equipment. The stated components are deemed as compliant as according to definitions given in the directives.

This document also certifies that the material declarations that have been provided by Solon Manufacturing are accurate.
