

SOLON® PRESSURE SWITCHES - WEATHER-TIGHT & EXPLOSION-PROOF MODELS PREVENT EXCESSIVE CYCLING IN FLUID FILTRATION APPLICATIONS

INDUSTRY CHALLENGES

Excessive cycling in fluid filtration applications.

SOLUTION

Solon's Weather-Tight Pressure Switches provide wide, adjustable deadbands for water control to power pump valves on/off. Ideal for harsh and unpredictable environments, industrial weather-tight pressure switches are NEMA and NEMA4X-rated to help insulate your valuable assets in outdoor and wash-down conditions.

SOLON ADVANTAGES

- “Frictionless” mechanism
- Rugged designs
- Customized engineered solutions
- Made in the USA

CUSTOMER BENEFITS

- Ability to control pump valves
- Accurate repeatable settings
- Prevent excessive cycling
- Waterproof/weather-tight solution for outdoor and wash-down conditions
- UL Listed Explosion-Proof models available for hazardous locations
- Economical

INDUSTRIAL APPLICATIONS

- Fluid filtration applications
- WWTP
- Fire/sprinkler systems
- Irrigation systems

Solon Mfg. Explosion-Proof Pressure Switch model 7PSX
